forktrucks

sales

## Sometimes Size Matters!

*If space is tight and you haven't got the room to manoeuvre a standard forklift, in the past you would have needed a reach truck for working inside the warehouse in confined spaces and an outside truck for unloading. Now with the new Cesab three-wheeled range of electric forklifts your problem is solved.*

*The range starts from 800kg through to a 2000kg forklift, with the 800kg forklift having a turning radius of only 1178mm*

Prices start from as low as

**£27.99**  
per week
